

She has the power to change the world; he was born to destroy it. There's nothing more thrilling than watching your past go up in smoke, unless maybe it's a hit of goodspit. The drug still haunts her, but Theda has done more than just survive since Ezekiel forced her to give up the drug; she has thrived, and now she has saved her pale rider from the clutches of the beast. She's home free, all but shouting out the victory, when the Beast arrives. He will rid New Earth of her with extreme prejudice, even if she leverages Henriks vision to save herself. Now, she's in yet another battle for her life--except her would-be assassin is the person she trusts the most. In a gritty, post-apocalyptic world, where any notion of god has been abandoned, humankind must look within for redemption.
