

The Bare Witch Project (Kitty Coven Series Book 1)

Werecats and Witchcraft, A Pagan Romance Morgan is a wannabe witch with a fear of cats and a traumatic history that puts her straight into the path of trouble. When a large black cat races into her house to escape a dog attack, she considers it just another example of how bad her luck has become. But this was no ordinary cat. Her life was about to be turned upside down by an ultra sexy beast with a few dark secrets of his own. Can a secretive werecat shifter protect her from a dangerous stalker? Or will she be forced to rely upon the pagan magic her grandmother so strongly believed in, but which Morgan feels insecure using? This is the first book in a pagan romance series involving werecat shifters and witches. There are some suggestive situations and shapeshifter nudity, but these stories are safe for most mature teens and young adult readers.
