Theyve made a fateful decision Even though any relationship between them is strictly forbidden, a night of passion has left them both in hot water. Now, as daylight breaks, Rafael and Emma must find a way to keep this secret between them and avoid antagonizing open conflict. A silent cry of help When Emma is told that she must bend to the demands of her club and become someones old lady--a harsh reminder of the life that she chose to pursue--she turns to Rafael for help. The consequences of action A hot-headed action in the heat of the moment is all it takes to stir up a conflict that has been simmering for more than ten years. As guns are raised on either side, Emma and Rafael have only each other to hold on to as their world falls to pieces. EXCERPT She couldnt get over the fact that shed spent part of the evening and all night with the hottest biker in town. Shed heard so many things about him from their foster mother, as well as the women hed been with. Every sexy thing shed heard about him was true, and she wanted to know more. Theyd shared a foster mother, but they had been in her home a few years apart. Yet, Miss Marlene had loved him like a son, and she talked about him all the time. Emma thought this would be a one-night thing, but their chemistry was off the charts. No sex shed had before had prepared her for the way he played her body like a well tuned instrument. I guess not, she said, not wanting him to know how shaken she was by the call and the ominous sounding meeting she was supposed to attend in a few hours. Do you have the makings of a meal in your kitchen? I love to cook, and I want to see you eat what I make for you. You have a way of making everything sound like sex is involved. He chuckled, reached for her hand, and pulled her behind him. Its a good thing I like food and sex. Ive got lots of food choices for you to put together. Ill watch you do your

magic in the kitchen, and then you can watch me do my magic on you. That sounds like you are saying that sex will be my payment for a great breakfast? she said, watching his muscular rear view.
