

Something should happen: a thunderbolt should erupt, a car should crash, a bell should ring. There should be a soundtrack—some horrible, frightening sound to accompany the news of your ex-boyfriend marrying one of your best friends from high school. Especially when you're still in love with him. No, of course she wasn't going. Are you insane? For 29-year-old academic Mina Joseph, going to Ella Hutchinson's destination wedding would be the ultimate act of lunacy. It would be much safer to stay in her shitty studio in Boston so she could stalk the Facebook pages of the bride, groom, and every other guest in attendance before falling asleep in a box of tears and Wheat Thins. But Luke's best man, the insufferably charming Benjamin Fogarty, has different plans for Mina. Not only is Ben desperate to break up the mismatched couple before they say their "I do's," he is convinced that Luke is still in love with Mina (though he can't figure out why). So, Ben offers Mina \$2400 and a plane ticket to come out of hiding and seduce the groom. Armed with a new wardrobe, devious friends, and copious amounts of tequila, Mina has five days to rekindle her love with Luke, expose Ella for the certifiable psychopath that she is, and at all costs, avoid having sex with the best man, regardless of how hot it could be.
