General Information The Flight Standards Service of the Federal Aviation Administration (FAA) has developed this practical test standard (PTS) for use by FAA inspectors and examiners when conducting flight engineer practical tests. Instructors and applicants are expected to be guided by this standard when preparing for practical tests. NOTE: Throughout this practical test standard, when the term examiners is used, inspectors and examiners should be understood. Information considered directive in nature is described in this practical test book in terms, such as shall and must indicating the actions are mandatory. Guidance information is described in terms, such as should and may indicating the actions are desirable or permissive, but not mandatory. The FAA gratefully acknowledges the valuable assistance provided by the many individuals who contributed their time and talent in assisting with the development of this practical test standard.
