

## Groupie

This is the second book by the irresistible Michelle Kendrick, a stand-alone contemporary romance. After months of intense research and interviews with whom some would consider to be questionable characters, kindhearted journalist Leah uncovers a dark underworld rampant with drugs and smuggling. What she uncovers begins a firestorm of panic and seduction. Always having been unlucky in love, a seemingly innocent encounter with an aspiring rock star adds to the new found drama in her formerly quiet life. Finding Mr. Right has never been Leah's objective. Chasing the next story has always been thrill enough for her. Her colossal discovery has opened up far more doors than she could have imagined. Struggling between two worlds, knowing what she knows now about a seedy life lived in the shadows, can Leah and Edward move past their differences and let love exist? When a bad boy and a deft journalist's worlds collide, is there any hope for their fledgling romance? Are their differences too many and the miles spent apart too much for them to grasp the one thing both need desperately to move forward? This eBook contains very hot and explicit descriptions of romantic activity. Only mature readers should download this book. Reviews for *Groupie*: I decided to check this book out using Kindle Unlimited. *Groupie* is a well-written romance saga between Leah, a journalist, and Edward, an aspiring Rockstar. The book pretty much drew me in within the first few pages, I really couldn't put it down until I finished reading it. The romance in this book is sweet and strained as the star couple deals with the struggles of a long distance relationship and with the party lifestyle that comes with Rock & Roll. Thankfully, there is a happy ending! There were points when I found myself glaring at my kindle as it seemed the fledgling romance was doomed. Call me a sucker, but I'm really a sucker for

these kinds of romantic stories. Ill definitely be keeping my eyes out on this writer, and if you are a fan of contemporary romance that is done tastefully I definitely recommend this book. 5 out of 5 Stars for me! a five star review on Amazon.com

Groupie definition is - a fan of a rock group who usually follows the group around on concert tours. How to use groupie in a sentence.
