

# Blood & Seed: What Really Happened in Eden and How Does it Affect Us?

Foreward by Ron Moseley, Ph.D., D.Phil., D. Litt. Why is there evil? Why does sin continue to plague humans, even after a faith experience? Why Did God/YHVH require blood to atone for sin? Why did Satan tempt Eve? what would he truly get out of it? If God/YHVH is all powerful, why did He require Jesus/Yshua to die on the cross? For these and hundreds of other questions, this book returns to Eden and the events of Genesis 3, to consider the possibility that the Hebrew text therein suggests such incredible and disturbing things, that one must set aside doctrinal theories and theological systems to understand the literal blood struggle between the Holy Creator God/YHVH and Satan. This event in Eden appears to be the foundational element in understanding the plan of God/YHVH throughout time, as shown in the Scriptures. If the concepts proposed herein are accurate, then the implications are staggering for all of humanity. This book should be read by every open minded scholar. The sources alone are worth the price. -Ron Moseley, Ph.D., D.Phil., D. Litt.
