

Blue Voodoo (The Blood Realm Series Book 2)

A tale of lust, voodoo, and revenge by USA Today bestselling author Jennifer Blackstream. Dominique is a voodoo queen respected by all, feared by some. Second only to the royal family in influence, she has worked her entire life to get where she is. The last thing she wants is for the man who shared her one wild night of youthful indiscretion to waltz off his ship and back into her life. Despite his devilish smile and proposal that's ten years too late, she's determined to send him on his way by any means necessary. If only he weren't so terribly persistent. If only the blue beard she'd cursed him with all those years ago didn't remind her of that night of passion. If only he'd told her about the three dead wives buried on his land...+ Cliffhanger-free+ HEA?????A fast moving and entertaining story that I recommend to anyone who likes new twists on old tales.?????The story is full of action, fantasy, a lot of comedy and a lot of steamy romance. Once you start reading you can't help but be drawn into the world and characters she creates. I haven't read a book from her yet that I didn't like. Can't wait for the next book!!
