

GAME OF PLEASURE: HISTORICAL ROMANCE

Welcome to the sizzling world of historical passion with this rousing tale of unbridled lust and unabashed wantonness set in early medieval France. **Mise en Scene:** This was the nadir of the Dark Ages, before knights and chivalry, before courtesans and troubadours, when danger lurked around every corner. Life was brutal but beautiful, terrifying yet titillating - as cruel and uncivilized as it was majestic and magnificent. As humanity teetered on the edge of a dangerous precipice, hovering between savagery and civility, the entire western world was in shambles following the fall of Rome. Yet out of the ashes arose a phoenix, a gallant hero, the man who sowed the seeds of feudalism and set the European stage for a thousand years to come. **Martel:** Caught in the crossfire between barbarian hordes, pagan invaders and treacherous local warmongers, Charles Martel must fight to unify this land fraught with strife and peril, to bring together the warring tribes of Celts, Saxons, Bretons and Alemanni under one united Frankish kingdom all while fighting off a calamitous infidel invasion from the south.

An unwanted bastard son abandoned by his wealthy and powerful father, Charles fought to reclaim his rightful inheritance from the greedy hands of his stepmother, and now stands ready to claim his empire. But Charles is motivated by much more than money and control, and he will stop at nothing to save his people from ruin.

Melisandra: A mysterious, fiery-haired temptress hidden in the shadows of Martel's Frankish fortress, the dazzling maid Melisandra fears for both life and limb, dreading her fate at the hands of her ruthless master. Yet the burning passion between the serf and her sovereign cannot be denied. As this story of unapologetic licentiousness and brazen carnality unfolds, is there more to their tale than meets the eye? (Authors note: This book was previously published under the same title
